

# 2018 Highlander

## At a Glance

Highlander is a no-compromise, three-row crossover SUV that brings together the best in style, technology, comfort, capability and safety. Since its release in 2001, it has won multiple awards for value and safety, including a 5-Star Overall Safety Rating from NHTSA.

For the efficiency-minded, a Highlander Hybrid is offered in four grades, all of which feature the clever All-Wheel Drive with intelligence (AWD-i) system. Hybrid or not, though, legendary Toyota dependability and a long list of safety features ensure Highlander's position as one of the best SUVs in the mid-size segment.

### Design

- Available panoramic moonroof
- Smoked-chrome accent headlights

### Technology

- Available Blind Spot Monitor[1] and Rear Cross-Traffic Alert[2]
- Entune™ multimedia

### Performance

- Available 5000-lb. towing capacity[3]
- 3.5-liter direct-injection V6 engine with Stop and Start System

## New for 2018

For 2018, there are no changes to Highlander. This mid-size crossover SUV continues to be a stylish and versatile choice with numerous standard safety features and driver-friendly technology throughout the cabin.

## The Bottom Line

The award-winning Highlander and Highlander Hybrid come standard with Toyota Safety Sense™ P (TSS-P)[4], Entune™ multimedia and an aggressive exterior design, not to mention available room for up to eight passengers. And with ten trims to choose from, there's a Highlander for everyone, with Highlander LE offering a highly capable SUV with generous standard equipment and Highlander Limited Platinum delivering cutting-edge technology and a bevy of available luxury options. An available AWD system makes

Highlander capable in harsh weather, and safety isn't a concern with Toyota Safety Sense™ [4] and Star Safety System™ as standard equipment on all models. Since its introduction in 2001, Highlander has defined what a mid-size SUV should be. The 2018 Highlander is no exception.

## Awards

- 2018 Toyota Highlander is an Insurance Institute for Highway Safety TSP.[5]

## Key Features

### LE

As the entry trim in the lineup, Highlander LE combines SUV utility with generous standard equipment like eight-passenger seating and numerous safety and convenience features.

- Five total USB ports

- Entune™ Audio
- Toyota Safety Sense™ P (TSS-P)[4]

## *LE Plus*

LE Plus improves on the LE trim by adding useful comfort and convenience features. LE Plus also introduces the model's 3.5-liter V6 engine and available all-wheel-drive system.

- Stop and Start Engine System
- Three-zone automatic climate control
- Integrated fog lights

## *XLE*

Highlander XLE takes the feature list a step further, offering the great standard safety features from the LE and LE Plus and adds driver convenience and in-cabin technology.

- Blind Spot Monitor[1] with Rear Cross-Traffic Alert[2]
- SofTex®-trimmed 60/40 split fold-flat third-row seat
- Smart Key System[11] with Push Button Start

## *SE*

With its unique interior and exterior appointments, Highlander SE is the perfect choice for buyers looking for the ideal blend between the practicality of an SUV and the exciting looks of a sports car.

- LED Daytime Running Lights (DRL)
- 19-in. machined-face alloy wheels with black finish
- Dark-painted roof rails

## *Limited*

Highlander Limited takes refined luxury and modern convenience a substantial step forward, thanks to its impressive list of high-tech driver assistance features.

- Rear Parking Assist Sonar[12]
- Heated power outside mirrors with memory
- Integrated backup camera[13] with dynamic gridlines

## *Limited Platinum*

With Limited Platinum, the Highlander experience is second to none. From connected safety to plush interior appointments, it offers the most advanced features available in the lineup.

- Panoramic moonroof
- Safety Connect®[14]
- Bird's Eye View Camera[15]

## *Hybrid LE*

Highlander Hybrid LE takes the generous standard equipment found on Highlander LE and combines it with an efficient hybrid V6 engine and a standard AWD-i drivetrain.

- Electronic On-Demand AWD system with intelligence (AWD-i)
- Hybrid blue accent badges
- Integrated backup camera[13] with projected path

## *Hybrid XLE*

Highlander Hybrid XLE builds on Hybrid LE's standard feature list and adds noteworthy comfort and convenience equipment throughout its spacious three-row cabin.

- Entune™ Premium Audio with Integrated Navigation[16]
- Leather-trimmed front and second-row seats
- Driver Easy Speak

## *Hybrid Limited*

With high-style appointments like LED lighting and flashy wheels, Highlander Hybrid Limited makes it clear that it's a high-end trim designed to stand out from the crowd.

- 19-inch Chromtec alloy wheels
- Blue LED ambient lighting
- Perforated heated and ventilated front row seats

## *Hybrid Limited Platinum*

Hybrid Limited Platinum is truly the complete package, featuring a premium assortment of the great safety, comfort and convenience technology available in the Highlander lineup.

- Blind Spot Monitor[1] with Rear Cross-Traffic Alert[2]
- Rain-sensing windshield wipers
- Entune™ Premium JBL® Audio

# Disclaimers

1. Do not rely exclusively on the blind-spot monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See \*Owner's Manual\* for additional limitations and details.
2. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection and range of the system. See \*Owner's Manual\* for additional limitations and details.
3. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in the \*Owner's Manual\*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. Calculated with the new SAE J2807 method.
4. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See \*Owner's Manual\* for additional limitations and details.
5. Insurance Institute for Highway Safety rating for 2018 Highlander, vehicle class Midsize SUV. For more details on 2018 Top Safety Pick Awards, see [www.iihs.org](http://www.iihs.org).
6. Whiplash-Injury-Lessening front seats can help reduce the severity of whiplash injury in certain rear end collisions.
7. 2018 EPA-estimated mileage. Actual mileage will vary.
8. Covers normal factory scheduled service for 2 years or 25K miles, whichever comes first. See Toyota dealer for details and exclusions. Valid only in the continental U.S. and Alaska.
9. Cargo and load capacity limited by weight and distribution.
10. Payload Capacity is the calculation of GVWR minus curb weight and should be used for comparison purposes only. The maximum amount of passenger and cargo weight your vehicle can carry is the Load Carrying Capacity indicated on the label(s) on the driver's doorjamb.
11. The Smart Key system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system.
12. Intelligent Clearance Sonar (ICS) is designed to assist drivers in avoiding potential collisions at speeds of 9 mph or less. Certain vehicle and environmental factors, including an object's shape and composition, may affect the ability of the ICS to detect it. Always look around outside the vehicle and use mirrors to confirm clearance. See \*Owner's Manual\* for additional limitations and details.
13. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See \*Owner's Manual\* for additional limitations and details.
14. Contact with the response center may not be available in all areas. Service Agreement required. A variety of subscription terms available; charges will vary. See [Toyota.com](http://Toyota.com) for details.
15. The Bird's Eye View Camera does not provide a comprehensive view of the area surrounding the vehicle. You should also look around outside your vehicle and use your mirrors to confirm surrounding clearance. Environmental conditions may limit effectiveness and view may become obscured. See \*Owner's Manual\* for additional limitations and details.
16. Availability & accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services & programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See \*Owner's Manual\* for details.
17. 18-in. & 19-in. performance tires are often expected to experience greater tire wear than conventional tires. Tire life may be substantially less than mileage expectancy, depending upon tires used and driving conditions.
18. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See [Toyota.com/entune](http://Toyota.com/entune) for details.
19. PANDORA®, the PANDORA® logo, and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc., used with permission.
20. iPod® is a registered trademark of Apple Inc. All rights reserved.
21. Advanced Voice Recognition capabilities vary by head unit.
22. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you.
23. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. A compatible Bluetooth enabled phone must first be paired. Phone performance depends on software, coverage & carrier.
24. Always drive safely, obey traffic laws & focus on the road while driving. Siri® is available on select iPhone/iPad models & requires Internet access. Siri® is not available in all languages or all areas & features vary by area. Some Siri® functionality & commands are not accessible in the vehicle. Data charges may apply. See [Apple.com](http://Apple.com) & phone carrier for details. Siri® is a registered trademark of Apple Inc.
25. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See [Toyota.com/entune](http://Toyota.com/entune) for details.
26. SiriusXM® services require a subscription after a 3-month trial period. Subscriptions governed by SiriusXM® Customer Agreement available at [SiriusXM.com](http://SiriusXM.com). **If you decide to continue your SiriusXM® service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates unless you call 1-866-635-2349 to cancel.** Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C.
27. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp.
28. Headphones are for passenger use only. Do not use while operating vehicle.
29. CAUTION! When driving a hybrid vehicle, pay special attention to the area around the vehicle. Because there is little vehicle noise in EV mode, pedestrians, people riding bicycles or other people and vehicles in the area may not be aware of the vehicle starting off or

approaching them, so take extra care while driving. EV mode works under certain conditions at low speeds. See \*Owner's Manual\* for details.

30. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on road, weather and traffic conditions. See \*Owner's Manual\* for additional limitations and details.
31. All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See \*Owner's Manual\* for additional limitations and details.
32. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See \*Owner's Manual\* for additional limitations and details.
33. At speeds greater than five miles per hour, when the accelerator is depressed first and the brakes are then applied firmly for longer than one-half second, Smart Stop Technology is designed to help the driver bring the vehicle to a stop. Smart Stop Technology operates only in the event of certain contemporaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. See \*Owner's Manual\* for details.
34. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting [www.aloa.org](http://www.aloa.org).
35. Downhill Assist Control is designed to help the driver maintain vehicle control and speed on steep, downhill descents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC will be effective in preventing a loss of control. See \*Owner's Manual\* for additional limitations and details.
36. Hill-Start Assist Control is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See \*Owner's Manual\* for additional limitations and details.
37. Roadside Assistance coverage is 2 years unlimited mileage. See Toyota Dealer for details and exclusions. Valid only in the continental U.S. & Alaska.
38. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See \*Owner's Manual\* for additional limitations and details.
39. Vehicle Dynamics Integrated Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VDIM will be effective in preventing a loss of control. See \*Owner's Manual\* for additional limitations and details.
40. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See \*Owner's Manual\* for details.
41. The TSS Pre-Collision System is designed to help avoid or reduce the crash speed and damage in certain frontal collisions only. It is not a substitute for safe and attentive driving. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See \*Owner's Manual\* for additional limitations and details.
42. The Pedestrian Detection System is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians and weather, light and road conditions. See \*Owner's Manual\* for additional limitations and details.
43. Lane Departure Alert with Steering Assist is designed to read visible lane markers under certain conditions. It provides a visual and audible alert and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See \*Owner's Manual\* for additional limitations and details.
44. Automatic high beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness requiring driver to manually operate the high beams. See \*Owner's Manual\* for additional limitations and details.
