

## KEY SELLING POINTS

1. Zero Emission Vehicle
2. Fueling and Range
3. Available Power On-Demand (Delayed Availability)
4. Game-Changing Refinement
5. 2016 Model Year Mirai Ownership Experience Program: Exclusive Service and Support

## WHAT'S NEW FOR 2016

### Packaging

- Toyota Mirai is all-new for 2016.

## MODELS & COLORS

## TRIMS

# TRIMS AT A GLANCE

## Mirai

### THE TRAILBLAZER

- Hydrogen fuel cell powertrain = zero emission vehicle
- A fillup takes about 3-5 minutes and produces an approximate driving range of up to 312 miles<sup>2</sup>
- LED low- and high-beam headlights with Automatic High Beam and auto-on/off feature
- Intelligent Touch controls for heated steering wheel, heated seats, windshield wiper de-icer and dual-zone automatic climate control
- Entune™ Premium JBL® Audio with Navigation and App Suite
- Two-stage heated 8-way power adjustable driver's and front passenger seats with power lumbar support, plus a 2-position memory function on driver's seat
- Pre-Collision System (PCS)<sup>3</sup>, Drive Start Control (DSC), Lane Departure Alert (LDA)<sup>4</sup>, Blind Spot Monitor (BSM)<sup>5</sup> with Rear Cross-Traffic Alert (RCTA)<sup>6</sup>, Dynamic Radar Cruise Control (DRCC)<sup>7</sup>, Automatic High Beam (AHB)<sup>8</sup>, front and rear park assist sonar<sup>9</sup>

## Mirai with Power On-Demand (Delayed Availability)

### BACKUP POWER WHEN YOU NEED IT

- Featuring a high-capacity DC outlet in the trunk, available Power On-Demand allows Mirai to serve as a mobile generator in case of emergency or for any event where a mobile power supply would be helpful

## FEATURES

## FEATURES

|  | MIRAI | MIRAI WITH POWER<br>ON-DEMAND (DELAYED<br>AVAILABILITY) |

## 2016 HYUNDAI TUCSON FUEL CELL

### KEY ADVANTAGES

#### 2016 Mirai vs. 2016 Hyundai Tucson Fuel Cell

- **Range:** Mirai anticipates an approximate driving range of up to 312 miles<sup>2</sup> per fillup while Tucson Fuel Cell anticipates a range of 265 miles.
- **Advanced safety:** Mirai features Pre-Collision System (PCS)<sup>3</sup>, Lane Departure Alert (LDA)<sup>4</sup>, Blind Spot Monitor (BSM)<sup>5</sup> with Rear Cross-Traffic Alert (RCTA)<sup>6</sup>, Automatic High Beam (AHB)<sup>8</sup>, Dynamic Radar Cruise Control (DRCC)<sup>7</sup>, Drive Start Control (DSC), front and rear park assist sonar<sup>9</sup>, and Safety Connect<sup>®17</sup> with a three-year trial subscription.
- **Sophisticated technology:** Mirai features advanced convenience features both inside and out that are unmatched by Tucson Fuel Cell: rain-sensing windshield wipers, LED low and high-beam headlights and, on the inside, Qi wireless charging<sup>11</sup> capability for compatible mobile devices, heated steering wheel, two-stage heated front and rear seats, and much, much more.
- **Entune™ Audio:** Mirai also outshines Tucson Fuel Cell in audio capability with more standard speakers, AM/FM cache radio and subscription-free access to integrated apps and data services with the Entune<sup>®</sup> App Suite<sup>13</sup>.

### HYUNDAI TUCSON FUEL CELL CHALLENGES

- Leather-trimmed interior
- 5-passenger seating
- Larger cargo capacity

## DISCLAIMERS

1. Manufacturer's Suggested Retail Price, excludes the Delivery, Processing and Handling Fee of \$835 for Cars. (Historically, vehicle manufacturers and distributors have charged a separate fee for processing, handling and delivering vehicles to dealerships. Toyota's charge for these services is called the "Delivery, Processing and Handling Fee" and is based on the value of the processing, handling and delivery services Toyota provides as well as Toyota's overall pricing structure. Toyota may make a profit on the Delivery, Processing and Handling Fee.) Excludes taxes, license, title and available or regionally required equipment. The Delivery, Processing and Handling Fee in AL, AR, FL, GA, LA, MS, NC, OK, SC and TX will be higher. Actual dealer price will vary.
2. Preliminary range estimate determined by Toyota. Final EPA range estimate not available at the time of printing. Use for comparison purposes only. Your range will vary depending on how you drive and maintain your vehicle.
3. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See your Owner's Manual for further information.
4. Lane Departure Alert is designed to read lane markers under certain conditions, and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See Owner's Manual for more information.
5. Do not rely exclusively on the blind-spot monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions, please see the Owner's Manual.
6. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see Owner's Manual.
7. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See your Owner's Manual for details.
8. Automatic high beams system operates at speeds above 25 mph. Situations such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn off. See Owner's Manual for details.
9. Do not exclusively rely on the Parking Assist Sonar system. Always look over your shoulder and use your mirrors to confirm clearance. System effectiveness depends on many factors. See Owner's Manual for details.
10. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. A compatible Bluetooth enabled phone must first be paired. Phone performance depends on software, coverage & carrier.
11. May not be compatible with all mobile phones, MP3/WMA players and like models.
12. iPod® is a registered trademark of Apple, Inc. All rights reserved.
13. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See Toyota.com/entune® for details.
14. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp.
15. SiriusXM® services require a subscription after a 3 month trial period. Subscriptions governed by SiriusXM® Customer Agreement available at SiriusXM.com. If you decide to continue your SiriusXM® service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates unless you call 1-866-635-2349 to cancel. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C.
16. PANDORA®, the PANDORA® logo, and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc., used with permission.
17. Contact with the response center may not be available in all areas. Service Agreement required. A variety of subscription terms available; charges will vary. See Toyota.com for details.
18. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy.
19. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB

## DISCLAIMERS

or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your Owner's Manual for further information/warnings.

20. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details.
21. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance, tire and road conditions.
22. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your Owner's Manual for details.
23. Cargo and load capacity limited by weight and distribution.
24. 2016 EPA-estimated MPG equivalent. Actual MPGe will vary based on driving habits, charging practice, battery age, weather, temperature and road/traffic conditions. Battery capacity will decrease with time and use. For more information on MPGe and range, please see [www.fueleconomy.gov](http://www.fueleconomy.gov).
