

2020 GR Supra

At a Glance

- * 335-hp engine
- * 0-60 mph in 4.1 seconds
- * 19-inch forged alloy wheels[1]
- * Active differential
- * Adaptive Variable Suspension
- * Active Cornering Assist

New for 2020

The all-new Supra is just that – it's entirely new. As a result, it's bound to turn heads on both the road and the track:

Design

- * LED exterior lighting
- * 19-inch forged alloy wheels[1]
- * Integrated rear spoiler

Technology

- * Standard active safety: Pre-Collision System[2], Lane Departure Warning[3] and Automatic High Beams[4]
- * Available Supra Connect[17]
- * Available 8.8-inch touchscreen display with wireless Apple CarPlay®[5] compatibility

Performance

- * 335-hp turbocharged inline-six-cylinder engine
- * Zero to 60 miles per hour in 4.1 seconds
- * Active differential and Adaptive Variable Suspension

Awards

- Awards coming soon.

Models

Model Code	Trim Name	Full Name	Engine
2372	3.0	3.0	3.0L 6-Cyl.
2374	3.0 Premium	3.0 Premium	3.0L 6-Cyl.
2375	Launch Edition	Launch Edition	3.0L 6-Cyl.

Key Features

3.0

Even in its base form, Supra is no slouch – it bundles unparalleled performance with standard active safety and next-generation technology in an unforgettable way.

- Pre-Collision System[2], Lane Departure Warning[3] and Automatic High Beams[4]
- 6.5-inch multimedia display
- 8.8-inch fully-digital gauge cluster

3.0 Premium

Supra's Premium grade refines its sporty offering with an enhanced audio multimedia setup, larger rear brakes and other subtle upgrades.

- 8.8-inch touchscreen multimedia display with wireless Apple CarPlay®[5] compatibility
- 12-speaker JBL®[6] HiFi Surround Sound system
- Supra Connect[17]

Launch Edition

Launch Edition makes Supra stand out with special touches like red side mirror caps and matte-black alloy wheels paired with a spirited drive that simply can't be compared.

- Limited to 1,500 units
- Uniquely numbered carbon-fiber badge
- 19-inch forged, matte-black alloy wheels[1] and red side mirror caps

Disclaimers

- 19-in. performance tires are often expected to experience greater tire wear than conventional tires. Tire life may be substantially less than mileage expectancy, depending on driving conditions.

2. The Supra Pre-Collision System is designed to help avoid or reduce the crash speed and damage in certain frontal collisions only. It is not a substitute for safe and attentive driving. System effectiveness is dependent on many factors including road, weather and vehicle conditions. The Pedestrian Detection System is designed to detect a pedestrian or bicyclist ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a collision avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrian or bicyclist and weather, light and road conditions. See Owner's Manual for additional limitations and details.
3. Lane Departure Warning is designed to read visible lane markers under certain conditions, and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details.
4. Automatic High Beams are activated under specific conditions. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner's Manual for additional limitations and details.
5. Not available on Supra vehicles with a 6.5-in. display screen. Apps and services are subject to change at any time without notice. Data charges may apply. Apple CarPlay is a trademark of Apple Inc.
6. JBL is a registered trademark of Harman International Industries, Incorporated.
7. Dynamic Radar Cruise Control (DRCC) is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on many factors including road, weather and traffic conditions. See Owner's Manual for additional limitations and details.
8. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner's Manual for additional limitations and details.
9. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection and range of the system. See Owner's Manual for additional limitations and details.
10. SiriusXM audio services require a subscription sold separately by Sirius XM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Current information and features may not be available in all locations, or on all receivers. ©2019 Sirius XM Radio Inc. SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc.
11. May not be compatible with all mobile phones, MP3/WMA players and like models.
12. The *Bluetooth* word mark and logos are registered trademarks owned by *Bluetooth SIG, Inc.* and any use of such marks by Toyota is under license. A compatible *Bluetooth* enabled phone must first be paired. Phone performance depends on software, coverage and carrier.
13. Voice Recognition capabilities vary by head unit.
14. Roadside Assistance coverage is 2 years unlimited mileage. Does not include parts and fluids, except emergency fuel delivery. See Toyota dealer for details and exclusions. Valid only in the continental U.S. and Alaska.
15. Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. When using the wireless charging system avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot and could cause burns.
16. All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner's Manual for additional limitations and details.
17. Not available on Supra vehicles with a 6.5-in. display screen. Includes a 4-year trial period, except Enhanced Roadside Assistance which is a 2-year period. Enrollment in a paid subscription required upon expiration of trial period. Services are dependent upon an operative telematics device, a cellular connection, navigation map data, GPS signal strength, and other factors, all of which can limit system functionality or availability, including access to response center and emergency support. Stolen vehicle police report required for use of Stolen Vehicle Recovery. Apps and services subject to change at any time without notice. Data charges may apply. For service details and limitations, see your Owner's Manual or supraconnect.com, and to learn about Supra Connect data collection, use, sharing and retention, visit Supra Connect Terms & Conditions.
18. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details.
19. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See Owner's Manual for additional limitations and details.
20. When the system is on, Automatic Electric Parking Brake is designed to automatically engage the Electric Parking Brake under limited conditions. It may not hold the vehicle under all conditions and does not function when the vehicle is in Reverse. Automatic Electric Parking Brake is not a substitute for manual use of the Electric Parking Brake. See Owner's Manual for additional limitations and details.
21. Auto Start/Stop not available on Manual Transmission equipped vehicles.
22. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system.
23. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire

- pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See Owner's Manual for details.
24. Lane Departure Warning with Steering Assist is designed to read visible lane markers under certain conditions. It provides a visual and audible alert and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details.
 25. Hill Start Assist Control is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details.
 26. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org.
 27. 2020 EPA-estimated mileage. Actual mileage will vary.
 28. ToyotaCare plan covers normal factory scheduled service for 2 years or 25K miles, whichever comes first. See Toyota dealer for details and exclusions. Valid only in the continental U.S. and Alaska.
 29. Cargo and load capacity limited by weight and distribution. Always properly secure cargo and cargo area.
 30. Extra cost of \$395 for (D06) painted exterior molding.
 31. Extra cost of \$1,495 for (D08) painted exterior molding.
 32. The Rearview Camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner's Manual for additional limitations and details.
 33. The Parking Sensors system is designed to assist drivers in avoiding potential collisions at very slow speeds. Certain vehicle and environmental factors, including an object's shape and composition, may affect the ability of the Parking Sensors system to detect it. Always look around outside the vehicle and use mirrors to confirm clearance. See Owner's Manual for additional limitations and details.
 34. Not available on Supra vehicles with a 6.5-in. display screen. Includes a 4-year trial period. Enrollment in paid subscription required upon expiration of trial period. Services depend on an operative telematics device, a cellular connection, GPS signal strength, and other factors, all of which can limit system functionality or availability. Services subject to change at any time without notice. Data charges may apply. For service details and limitations, see your Owner's Manual or supraconnect.com, and to learn about Supra Connect data collection, use, sharing and retention, please visit Supra Connect Terms & Conditions.
 35. Not available on Supra vehicles with a 6.5-in. display screen. Includes 4-year trial period for Battery Guard and 2 years for Roadside Assistance. Enrollment in paid subscription required upon expiration of trial period. Services depends on an operative telematics device, a cellular connection, and other factors, all of which can limit system functionality or availability. Roadside Assistance does not include parts and fluids, except emergency fuel delivery. Services may vary by region and are subject to change at any time without notice. Data charges may apply. For service details and limitations, see your Owner's Manual or supraconnect.com.
 36. Not available on Supra vehicles with a 6.5-in. display screen. Includes a 4-year trial period. Enrollment in a paid subscription is required upon expiration of trial period. Navigation must be functioning, and destination entered for service to function. Service depends on an operative telematics device, a cellular connection, GPS signal strength, and other factors, all of which can limit system functionality or availability. Services not available in every city or roadway. Use common sense when relying on information provided. Service subject to change at any time without notice. For service details and limitations, see your *Navigation System* Owner's Manual or supraconnect.com.
 37. Not available on Supra vehicles with a 6.5-in. display screen. Includes a 4-year trial period. Enrollment in paid subscription required upon expiration of trial period. Service depends on an operative telematics device, a cellular connection, navigation map data, GPS signal strength, and other factors, all of which can limit service functionality or availability, including access to response center and emergency support. Service subject to change at any time without notice. For service details and limitations, see your Owner's Manual or supraconnect.com.
 38. Not available on Supra vehicles with a 6.5-in. display screen. Includes a 4-year trial period. Map updates based on your current North American region. If you relocate to a new region, the user region will be updated automatically after 45 days in that region. You can also visit your Supra dealer to have your map data manually updated, which may be at an additional cost to you. Map updates unavailable upon the expiration of the trial period, after which enrollment in a paid subscription is required, which provides up to 4 map updates per year. Service subject to change at any time without notice. Data charges may apply. For service details and limitations, see your *Navigation System* Owner's Manual.
