

# 2019 Corolla Hatchback

## At a Glance

As an all-new vehicle for the 2019 model year, Corolla Hatchback replaces the 2018 Corolla iM. This sharp-looking vehicle is a new addition to the Corolla family, and will be sold alongside the Corolla sedan. Corolla Hatchback is also the first Toyota to offer TSS 2.0.

True to modern Toyota philosophy, Corolla Hatchback offers many standard safety and convenience technologies, and further sweetens the deal with two transmission choices and available best-in-class gas mileage estimates. And with great rear cargo space, the five-door hatch is the perfect car to take to school and beyond. This 2019 Corolla Hatchback ushers in a new age of drivers – literally.

## New for 2019

Built from the bottom up, Corolla Hatchback is better in every way. It's lower, wider and has a longer wheelbase compared to Corolla iM, and it's absolutely packed with advanced new technologies both inside its stylish cabin and under its hood.

In addition to the enthusiast-oriented manual gearbox, a Dynamic-Shift CVT is also available for convenience. Its new 2.0-liter four-cylinder engine provides impressive power and fuel economy estimates.

### Design

- \* LED lighting: headlamps, Daytime Running Lights and taillights
- \* Triple - J LED accent lights
- \* Trapezoidal-shaped under grille with available chrome surround
- \* 18-in. alloy wheels on XSE[1]

### Technology

- \* TSS 2.0[2] suite of advanced safety systems
- \* Entune™ 3.0[44] multimedia with 8-inch touch-screen
- \* Apple CarPlay™[3] and Amazon Alexa Connectivity[4]

### Performance

- \* 168 horsepower – a 31-hp advantage over Corolla iM
- \* Sport-tuned suspension with MacPherson front struts and rear multi-link design
- \* 6-speed Intelligent Manual Transmission (iMT) with downshift rev-match and Hill Start Assist Control[5]

\* Active Cornering Assist, which helps provide great cornering abilities

## The Bottom Line

With its long list of standard safety equipment, Corolla Hatchback is an obvious choice for new drivers. Its compact size makes it easy to maneuver, while the hatch and fold-flat rear seats provide enough storage space to haul everything you’ve got and then some. Meanwhile its head-turning style and its lively drivetrain and chassis ensure the ride is fun, wherever the road may lead. Combine all this with an approachable MSRP[6] and the ToyotaCare No Cost Maintenance Plan[7] and Roadside Assistance[8], and it’s clear that Corolla Hatchback is one seriously smart buy.

## Awards

- Awards coming soon.

# Models

Model Code	Trim Name	Full Name	Engine
6272	SE	SE (CVT)	2.0L 4-Cyl.
6273	SE	SE (6MT)	2.0L 4-Cyl.
6274	XSE	XSE (CVT)	2.0L 4-Cyl.
6275	XSE	XSE (6MT)	2.0L 4-Cyl.

# Key Features

## SE

SE kicks off the Corolla Hatchback lineup with loads of standard equipment, like the confidence-inspiring active safety technology, modern multimedia functionality, LED lighting and best-in-class fuel mileage estimates.

- Toyota Safety Sense™ 2.0[2]
- Entune™ 3.0[44] Audio with 8-inch touch-screen
- LED lighting: headlamps, Daytime Running Lights and taillights

## XSE

XSE builds atop SE with larger 18-in. alloy wheels[1] that give this hatch a seriously sporty appeal. And inside the cabin, occupants can listen to SiriusXM®[18] Satellite Radio, as well as enjoy the upgrades like power driver and leather seats and additional convenience features.

- 18-in. machined finish alloy wheels[1]
- Standard Blind Spot Monitor[26] on XSE trims
- Entune™ 3.0[44] Connected Services compatibility

# Disclaimers

- 18-in. performance tires are often expected to experience greater tire wear than conventional tires. Tire life may be substantially less than mileage expectancy, depending on driving conditions.
- Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details.
- Apple CarPlay is a trademark of Apple Inc.
- Amazon, Alexa, and all related logos are trademarks of Amazon.com, Inc. or its affiliates. Not all Amazon Alexa skills are available for in vehicle use.
- Hill Start Assist Control is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details.
- MSRP excludes the Delivery, Processing and Handling Fee of \$920 for Cars (Yaris, Yaris iA, 86, Corolla, Corolla HB, Camry, Camry HV, Prius LB, Prius c, Prius Prime, Mirai, Avalon, Avalon HV), \$1,045 for Small/Medium Trucks, SUVs and Van (C-HR, RAV4, RAV4 HV, Highlander, Highlander HV, 4Runner, Sienna, Tacoma), \$1,295 for Large SUVs (Sequoia, Land Cruiser), and \$1,395 for Large Trucks (Tundra). (Historically, vehicle manufacturers and distributors have charged a separate fee for processing, handling and delivering vehicles to dealerships. Toyota's charge for these services is called the "Delivery, Processing and Handling Fee" and is based on the value of the processing, handling and delivery services Toyota provides as well as Toyota's overall pricing structure. Toyota may make a profit on the Delivery, Processing and Handling Fee.) Excludes taxes, license, title and available or regionally required equipment. The Delivery, Processing and Handling Fee in AL, AR, FL, GA, LA, MS, NC, OK, SC and TX will be higher. Actual dealer price will vary.
- ToyotaCare plan covers normal factory scheduled service for 2 years or 25K miles, whichever comes first. See Toyota dealer for details and exclusions. Valid only in the continental U.S. and Alaska.
- Roadside Assistance coverage is 2 years of unlimited mileage. Does not include parts and fluids, except emergency fuel delivery. See Toyota dealer for details and exclusions. Valid only in the continental U.S. & Alaska.
- Cargo and load capacity limited by weight and distribution. Always properly secure cargo and cargo area.
- JBL® & Clari-Fi™ are registered trademarks of Harman International Industries, Incorporated.
- Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. When using the wireless charging system avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot and could cause burns.
- USB port may not be compatible with all mobile phones, MP3/WMA players and like models. iPod® is a registered trademark of Apple Inc. All rights reserved.
- Advanced Voice Recognition capabilities vary by head unit.
- Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you.
- The *Bluetooth*® word mark and logos are registered trademarks owned by *Bluetooth* SIG, Inc. and any use of such marks by Toyota is under license. A compatible *Bluetooth* enabled phone must first be paired. Phone performance depends on software, coverage & carrier.
- The Scout® GPS Link app is compatible with select vehicle models. Availability and accuracy of the information provided by Scout GPS Link is dependent upon many factors, including smartphone connectivity and capability, and cellular reception and is subject to change at any time without notice. Always use safe driving practices and follow all traffic rules. Data charges may apply. Scout® and Telenav® are registered trademarks of Telenav, Inc.

17. Always drive safely, obey traffic laws & focus on the road while driving. Siri® is available on select iPhone/iPad models & requires Internet access. Siri® is not available in all languages or all areas & features vary by area. Some Siri® functionality & commands are not accessible in the vehicle. Data charges may apply. See Apple.com & phone carrier for details. Siri® is a registered trademark of Apple Inc.
18. SiriusXM® audio services require a subscription sold separately by Sirius XM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at [www.siriusxm.com](http://www.siriusxm.com). All fees and programming subject to change. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Current information and features may not be available in all locations, or on all receivers. ©2018 Sirius XM Radio Inc. SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc.
19. Toyota Safety Connect® is dependent upon an operative telematics device, a cellular connection and other factors outside of Toyota's control, which can limit the ability to reach the response center or receive emergency support or otherwise limit the functionality or availability of the system. Terms and conditions of subscription service agreement apply. To learn about Toyota's data collection, use, sharing and retention, please visit <https://www.toyota.com/privacyvts/>. Stolen vehicle police report required to use Stolen Vehicle Locator.
20. Information provided is based on the last time data was collected from the vehicle and may not be up to date. System functionality depends on vehicle connectivity.
21. Use only if aware of circumstances surrounding vehicle and it is legal and safe to do so (e.g., do not remotely start engine if vehicle is in an enclosed space or vehicle is occupied by a child). Functionality depends on many factors, such as vehicle and smartphone connectivity. Remote Start/Stop not available on Manual Transmission equipped vehicles. Registration and app download are required. Subscription purchase required after trial. See usage precautions and service limitations in Owner's Manual.
22. Wi-Fi Connect is available on select 2018 and newer Toyota vehicles. Visit [Toyota.com](http://Toyota.com) for vehicle availability. Verizon Wireless is the network provider for Wi-Fi Connect, which uses Verizon's 4G LTE network to transmit data. Data usage applies. Coverage not available everywhere; see [vzw.com](http://vzw.com). See [verizonwireless.com/bestnetwork](http://verizonwireless.com/bestnetwork) for details. LTE is a trademark of ETSI. Other terms apply. Up to 5 devices can be supported using in-vehicle connectivity. Verizon Wireless data subscription required upon end of 6-month trial period or use of 2-GB data (whichever comes first). Use of Wi-Fi Connect subject to Verizon Wireless' Customer Agreement ([verizon.com/about/privacy/privacy-policy-summary](http://verizon.com/about/privacy/privacy-policy-summary)), and data use policies ([verizonwireless.com/support/vz-email-legal/](http://verizonwireless.com/support/vz-email-legal/)).
23. Dynamic Navigation three year trial begins the earlier of when the vehicle hits 100 miles or a year after the multimedia system manufactured date, regardless of when you purchase or lease the vehicle. Availability & accuracy of the information provided by the Dynamic Navigation system is dependent upon many factors. Use common sense when relying on information provided. Services & programming subject to change. Services not available in every city or roadway. See Owner's Manual for details.
24. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp.
25. Availability & accuracy of the information provided is dependent upon many factors. Use common sense when relying on this information. Services & programming subject to change. Service not available in every city or roadway. See Owner's Manual for details.
26. Do not rely exclusively on the blind-spot monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner's Manual for additional limitations and details.
27. All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner's Manual for additional limitations and details.
28. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner's Manual for additional limitations and details.
29. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner's Manual for additional limitations and details.
30. Brake Assist (BA) is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See Owner's Manual for additional limitations and details.
31. Smart Stop Technology operates only in the event of certain contemporaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner's Manual for details.
32. The TSS Pre-Collision System is designed to help avoid or reduce the crash speed and damage in certain frontal collisions only. It is not a substitute for safe and attentive driving. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details.
33. The Pedestrian Detection System is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians and weather, light and road conditions. See Owner's Manual for additional limitations and details.
34. When the system is on, Automatic Electric Parking Brake is designed to automatically engage the Electric Parking Brake under limited conditions. It may not hold the vehicle under all conditions and does not function when the vehicle is in Reverse. Automatic

Electric Parking Brake is not a substitute for manual use of the Electric Parking Brake. See Owner's Manual for additional limitations and details.

35. When the system is on, Brake Hold is designed to keep the brakes engaged after the driver brings the vehicle to a complete stop. It may not hold the vehicle under certain conditions and does not function when the vehicle is in Reverse. Brake Hold is not a substitute for safe and attentive driving. See Owner's Manual for additional limitations and details.
36. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system.
37. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See Owner's Manual for details.
38. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on many factors including road, weather and traffic conditions. See Owner's Manual for additional limitations and details.
39. Lane Departure Alert with Steering Assist is designed to read visible lane markers under certain conditions. It provides a visual and audible alert and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details.
40. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness requiring driver to manually operate the high beams. See Owner's Manual for additional limitations and details.
41. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting [www.aloa.org](http://www.aloa.org).
42. Whiplash Injury Lessening front seats can help reduce the severity of whiplash injury in certain rear end collisions.
43. 2019 EPA estimates not available at time of publishing. Actual mileage will vary.
44. Toyota Entune 3.0 services are dependent upon an operative telematics device, a cellular connection, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. Terms and conditions of subscriber agreement apply. To learn about Toyota Entune 3.0's data collection, use, sharing and retention, please visit [www.toyota.com/support/privacy-rights](http://www.toyota.com/support/privacy-rights). Stolen vehicle police report required to use Stolen Vehicle Locator.
45. Do not rely exclusively on Road Sign Assist (RSA). RSA is a driver support system that utilizes the vehicle's forward facing camera and navigation system (when data is available) to recognize certain road signs and provide information to the driver via the multi-information display and/or Head-Up display. Effectiveness is dependent on road, weather, vehicle and sign conditions. Use common sense when using RSA and do not drive distracted. See Owner's Manual for additional limitations and details.
46. Lane Tracing (Trace) Assist (LTA) is designed to read visible lane markers and detect other vehicles under certain conditions. When potential lane departure is detected, LTA provides a visual warning and either an audible alert or vibration in the steering wheel and can apply a slight steering force. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner's Manual for additional limitations and details.
47. Destination Assist Connect is dependent upon an operative telematics device, a cellular connection, navigation map data and GPS satellite signal reception, and other factors outside of Toyota's control, which can limit the ability or functionality of the system. Use common sense when relying on this information. To learn about Toyota Entune™ 3.0's data collection, use, sharing and retention, please visit <https://www.toyota.com/privacyvts/>. See Owner's Manual for additional details.
