■ 2014 HONDA ODYSSEY

KEY ADVANTAGES

2014 Sienna XLE FWD V6 vs. 2014 Honda Odyssey EX-L

- **More horsepower** – Sienna V6's extra 18 HP makes carrying a heavy load or accelerating up to highway speed seem easy

DEMO TIPS

If you're demonstrating Sienna with the available power rear door, open it via the key fob button as you walk up to the vehicle. Close the rear door via the integrated button or the key fob, then let the customer know that there's also an open/close button on the dash.

Be sure your customers know how to use Sienna's Bluetooth^{®†} wireless technology so they will understand its benefits. View the how-to instruction available on www.eshowroom.toyota.com. Then, pair your own Bluetooth^{®†} phone to the vehicle so you can demonstrate at any time.

Sienna Limited is available with Dynamic Radar Cruise Control (DRCC)[†]. While on a test drive, have the customer use the feature. DRCC[†] uses onboard sensors to detect a vehicle traveling in front of Sienna in the driving lane. After the driver selects his or her preferred pre-set distance, the cruise control system uses advanced radar to sense if the vehicle traveling directly in front is getting too close. If it is, the system adjusts Sienna's speed or applies the brakes.

It is easy to park and maneuver Sienna confidently, thanks to its tight turning radius and the available rear parking assist sonar[†].

Be sure to "talk up" Sienna's Star Safety System[™] with your customers.

QUICK FACTS

Sienna offers many flexible cargo-carrying configurations. When owners need extra space to carry cargo instead of passengers, standard 2nd-row Captain's Chairs with tip-up and long-slide feature can slide forward or be removed to make room. For Sienna Limited, standard power 3rd-row seats quickly fold away into an under-floor storage compartment – all at the touch of a button!

With its 16.4-in. screen, the available Dual-View Entertainment Center can be used two ways: single screen or split-screen — a DVD movie on one side, a video game on the other. You can operate everything from the instrument panel. In addition to the main DVD player, located at the front of the vehicle, the system also includes external audio and video input jacks for 2nd-row passengers to allow them to enjoy music, movies and video games while a DVD is playing.

The available dual power sliding doors let you access Sienna with ease in one of three ways: Push a button on the remote keyless entry or Smart Key[†] fob; grab the interior or exterior door handles; or flick the switch on the overhead console or interior center pillar.
