

2018 Tacoma

At a Glance

Succeeding a legend like the rugged HiLux (a.k.a. Toyota Pickup in the United States) is never easy, but Tacoma has been on – and off – the roads for over two decades now. With six trim levels ranging from the workman-like SR to the Baja-bred TRD Pro, Tacoma is meant to not only be a fully-capable mid-sized truck, but one that's refined enough for drivers to enjoy on a daily basis. That's a big reason why, according to Edmunds, over 75 percent of all Tacomas traded in are traded in for another Tacoma.[1]

Design

- * Double Cab available with both 5-ft. and 6-ft. bed
- * Available power sliding rear glass (V6 Double Cab and above)
- * Rigid-brand fog lights (TRD Pro)

Technology

- * TSS-P[2] suite of advanced safety features included on all models
- * Available Crawl Control[3] and Multi-terrain Select (select TRD models)
- * Available Blind Spot Monitor[4] and rear parking sonar[5]

Performance

- * 6,400-lb. towing capacity[6] (V6 models)
- * Rear locking differential (select TRD models)
- * Fox-brand shock absorbers with remote reservoirs (TRD Pro)

New for 2018

Tacoma adds a trio of new colors to its 2018 lineup (Cavalry Blue, Cement and Midnight Black Metallic), but the big news is the addition of the Toyota Safety Sense™ P (TSS-P)[2] suite of advanced driver safety systems. Now standard on every Tacoma, TSS-P gives drivers an extra sense of safety, with its Pre-Collision System[7] with Pedestrian Detection[8], Lane Departure Alert[9] and Dynamic Radar Cruise Control.[10]

The Bottom Line

Tacoma remains a leader in its class for good reason. Dozens of different models available — each now boasting the advanced safety measures of Toyota Safety Sense™ P[2] — ensures there's no shortage of choice, regardless of a shopper's needs. Whether it's an

inexpensive work truck, a comfortable daily driver or a dirt-blasting adventure-mobile, Tacoma is uniquely positioned as a popular choice with tremendous heritage in the mid-sized truck segment.

Awards

- Best-selling compact pickup in America.[11]
- America's best-selling midsize pickup for the last ten years.[12]
- 2018 Toyota Tacoma – Best Resale Value: Mid-Size Pickup Truck[13]
- 2018 Toyota Tacoma – Best Resale Value: Top 10[13]
- 2018 Toyota Tacoma is the only vehicle in its class equipped with a Pre Collision system, a lane departure alert system, adaptive cruise control, and automatic high-beam headlights, as standard equipment.[14]

Key Features

SR

SR may be the least expensive of all Tacomas, but its bountiful features mask its workmanlike purpose, with a six-speaker sound system, backup camera[15] and a host of advanced safety technologies not found on many trucks at much higher prices.

- TSS-P[2] suite of advanced safety technologies
- Backup camera[15] with integrated display
- Entune™ Audio with 6.1-in. touch-screen display and 6 speakers

SR5

Step up to SR5, and Tacoma picks up modern conveniences like navigation[16] that pairs with a smart phone, a 4.2-in. color Multi-Information Display mounted in the instrument panel, and a leather-trimmed steering wheel.

- Entune™ Audio Plus with Connected Navigation[16] App
- Leather-trimmed steering wheel
- 4.2-in. color Multi-Information Display

TRD Sport

TRD Sport stands out from the crowd, providing an upscale visual experience — starting in front with its distinguishing hood scoop — while offering luxuries to go with it, including a power sliding rear window with privacy glass and an available power sliding moonroof.

- Sporty trim, including hood scoop and color-keyed mirrors and door handles
- Available power sliding moonroof
- Power sliding rear window with privacy glass (Double Cab)

TRD Off-Road

With a rear locking differential for added traction in precisely the environment from which TRD Off-Road takes its name, plus advanced driver aids like Crawl Control[3] and Multi-terrain Select to help maintain control in treacherous conditions, TRD Off-Road is where the fun really starts.

- Rear locking differential
- Crawl Control[3] and Multi-terrain Select
- Available Blind Spot Monitor[4] with Rear Cross-Traffic Alert[17]

Limited

Tacoma's top-of-the-line Limited trim brings full-sized luxury features to the midsized truck, with leather-trimmed seats, dual-zone climate control, premium JBL® audio, and items like a power moonroof as standard equipment.

- Leather-trimmed seats
- Dual-zone climate control
- Entune™ Premium Audio with JBL®

TRD Pro

TRD Pro brings professional-caliber off-roading[18] capabilities to the table. Built for blasting across the open desert, its heavy-duty suspension and beefed-up skid plate to protect its underside provide both the confidence and durability to maximize Tacoma's fun factor.

- Fox 2.5 Internal Bypass off-road shocks
- Quarter-inch aluminum TRD skid plate
- TRD Pro "cat-back" exhaust

Disclaimers

- For more information, please see – www.edmunds.com/about/press/truck-loyalty-climbs-to-an-all-time-high-reports-edmundscom.html
- Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See *Owner's Manual* for additional limitations and details.
- Crawl Control is designed for driving on difficult terrain at low speeds. It assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. The Tacoma is designed to meet off-road driving requirements, but off-roading is inherently dangerous. Always wear seatbelts. See *Owner's Manual* for additional limitations and details.
- Do not rely exclusively on the blind-spot monitor. Always look over your shoulder and use your turn signal. There are limitations to

- the function, detection and range of the monitor. See *Owner's Manual* for additional limitations and details.
5. Intelligent Clearance Sonar (ICS) is designed to assist drivers in avoiding potential collisions at speeds of 9 mph or less. Certain vehicle and environmental factors, including an object's shape and composition, may affect the ability of the ICS to detect it. Always look around outside the vehicle and use mirrors to confirm clearance. See *Owner's Manual* for additional limitations and details.
 6. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in the *Owner's Manual*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. Calculated with the new SAE J2807 method.
 7. The TSS Pre-Collision System is designed to help avoid or reduce the crash speed and damage in certain frontal collisions only. It is not a substitute for safe and attentive driving. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See *Owner's Manual* for additional limitations and details.
 8. The Pedestrian Detection System is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians and weather, light and road conditions. See *Owner's Manual* for additional limitations and details.
 9. Lane Departure Alert with Sway Warning System is designed to read visible lane markers under certain conditions, and provide visual and audible alerts when it detects a pattern of vehicle movement that might indicate driver inattention or drowsiness. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. See *Owner's Manual* for additional limitations and details.
 10. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on road, weather and traffic conditions. See *Owner's Manual* for additional limitations and details.
 11. Based on manufacturer estimates, CY 2017 sales.
 12. Based on manufacturer estimates, CY 2008-2017 sales.
 13. Vehicle's projected resale value is specific to the 2017 model year. For more information, visit Kelley Blue Book's KBB.com. Kelley Blue Book is a registered trademark of Kelley Blue Book Co., Inc.
 14. Based on manufacturer's data for small pick-up trucks, September 2017.
 15. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See *Owner's Manual* for additional limitations and details.
 16. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See Toyota.com/entune for details.
 17. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection and range of the system. See *Owner's Manual* for additional limitations and details.
 18. The Tacoma is designed to meet most off-road driving requirements, but off-roading is inherently dangerous and may result in vehicle damage. Toyota encourages responsible operation to help protect you, your vehicle and the environment. Seatbelts should be worn at all times. Do not allow passengers to ride in cargo area.
 19. Availability & accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services & programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See *Owner's Manual* for details.
 20. 17-in. & 18-in. performance tires are often expected to experience greater tire wear than conventional tires. Tire life may be substantially less than mileage expectancy, depending upon tires used and driving conditions.
 21. iPod® is a registered trademark of Apple Inc. All rights reserved.
 22. Advanced Voice Recognition capabilities vary by head unit.
 23. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you.
 24. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. A compatible Bluetooth enabled phone must first be paired. Phone performance depends on software, coverage & carrier.
 25. Always drive safely, obey traffic laws & focus on the road while driving. Siri® is available on select iPhone/iPad models & requires Internet access. Siri® is not available in all languages or all areas & features vary by area. Some Siri® functionality & commands are not accessible in the vehicle. Data charges may apply. See Apple.com & phone carrier for details. Siri® is a registered trademark of Apple Inc.
 26. SiriusXM® services require a subscription after a 3-month trial period. Subscriptions governed by SiriusXM® Customer Agreement available at SiriusXM.com. If you decide to continue your SiriusXM® service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates unless you call 1-866-635-2349 to cancel. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C.
 27. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp.
 28. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See Toyota.com/entune for details.
 29. Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. When using the wireless charging system avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot and could cause burns.
 30. The Smart Key system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system.

31. All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See *Owner's Manual* for additional limitations and details.
32. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See *Owner's Manual* for additional limitations and details.
33. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See *Owner's Manual* for additional limitations and details.
34. At speeds greater than five miles per hour, when the accelerator is depressed first and the brakes are then applied firmly for longer than one-half second, Smart Stop Technology is designed to help the driver bring the vehicle to a stop. Smart Stop Technology operates only in the event of certain contemporaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. See *Owner's Manual* for details.
35. Hill-Start Assist Control is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See *Owner's Manual* for additional limitations and details.
36. Trailer Sway Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether TSC will be effective in preventing a loss of control. See *Owner's Manual* for additional limitations and details.
37. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See *Owner's Manual* for details.
38. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org.
39. 2018 EPA-estimated mileage. Actual mileage will vary.
40. Covers normal factory scheduled service for 2 years or 25K miles, whichever comes first. See Toyota dealer for details and exclusions. Valid only in the continental U.S. and Alaska.
41. Roadside Assistance coverage is 2 years unlimited mileage. See Toyota Dealer for details and exclusions. Valid only in the Continental U.S. & Alaska.
42. Payload Capacity is the calculation of GVWR minus curb weight and should be used for comparison purposes only. The maximum amount of passenger and cargo weight your vehicle can carry is the Load Carrying Capacity indicated on the label(s) on the driver's doorjamb.
43. Auto LSD is an electronic, brake-actuated limited-slip differential that automatically activates when VSC is disengaged at low speeds.
44. Automatic high beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness requiring the driver to manually operate the high beams. See *Owner's Manual* for additional limitations and details.
